VENETA CUCINE

Una cucina living open arredata con **Iconica** in vetro Cappuccino liscio e laccato, modello che si appropria di materiali, stile e complementi della zona giorno. Come i pannelli modulari attrezzati del sistema **Groove**, che sfrutta e decora le superfici verticali. Groove consente di **accostare tra loro uno o più pannelli racchiusi da un telaio posteriore in alluminio finito Bronzo**, dotati di profili accessoriabili con mensole in alluminio, laccate o impialacciate, con ganci, portaretoli e portacalici e disonibili con luce Led. Realizzato nelle finiture dell'azienda, Groove è abbinabile alla coppia Tapa e realizzato anche in versione Light. Lo spazio annette la libreria interparete coassente in Frassino Scuro coordinata alle colonne.

LA CASA MODERNA

The **Pratica 30** kitchen is presented in a composition with neutral nuances combined with exquisite details and clean lines, creating a furnishing solution with a living-area flavour, a style hinted at mainly in the wooden wall fitted with shelves. This is the wood-effect **Vertigo** panelling, which acts as a connecting element between the kitchen's base and wall units. Modular and fully equipped, it has a slate-finish metal structure, back panel and shelves in wood-effect melamine with fall-prevention bars and matching object holders, while over the cooking and sink areas it is completed with steel finish panels. It can be made to measure, with various materials, finishes and accessories.

VENETA CUCINE

An open kitchen-living room furnished with **Iconica** in smooth and ribbed Cappuccino glass, a model that borrows the materials, style and accessories of the living area, such as the equipped modular panels of the **Groove** system, which uses and decorates the vertical surfaces. With Groove it is possible to combine one or more panels enclosed by a Bronzo finished aluminium framework at the back, equipped with profiles that can be accessorised with aluminium, lacquered or veneered shelves, with hooks, roll holders and glass holders, also available with LED lighting. Groove comes in the company's standard finishes: it can be combined with the Tapa hood and is also available in the Light version. The space includes the pass-through partition bookcase in Dark Ash coordinated with the tall units.
